Our team

Leaders in embedding patient perspectives in everything we do.

Our team supports services for 0–25-year-olds to develop and thrive.

We have experts-by-experience, clinical expertise, staff with experience of working in health services, education, community & youth work.

We can support you to develop engagement with children, young people and families on topics from long term conditions, quality improvement, service shaping, transition to adult care, health inequalities, exploring models & standards for engagement, children's rights & more.
