**Course aim**

This study day will enable you to develop an effective approach for the management of common dermatological conditions affecting children and young people.

**Learning outcomes**

By the end of this course, you will be able to:

- Identify and recognise symptoms of common dermatological conditions in children
- Describe the available treatment options for common skin conditions in children
- Support parents, carers, children and young people with the ongoing management of skin disorders.

**Course lead**
