Research Survey

ONLINE SURVEY

Child Health Research Survey

Children make up over 20% of our population, yet child health research receives only 5% of funding. We want to hear from paediatricians across all grades to understand any barriers and help us build a stronger future for child health.

[Learn more and complete the two-minute survey](#)

Trainee Research Network Education Seminars (TREES)

Education seminars stream on the last Tuesday of the month at 1 PM. Each 45-minute session is designed to offer residents practical insights into child health research.

[Register now for the 2025-26 series](#)

Academic Trainees Day

Join our free online training day on 6 November for expert-led workshops providing insights into core research areas: infrastructure, methods, collaboration and tools. Designed to support residents on their research journey, [register to secure your place](#)
