British Association for Community Child Health (BACCH)
Child Public Health Interest Group

CHAIRMAN: Dr Angela Moore, Wolverhampton, Academic Convenor, BACCH

1330-1410  Guest lecture Participation for children with communication difficulties and the Hello Campaign
Ms Jean Gross, Children’s Communication Champion, The Communication Trust, London

1410-1425  Social determinants of parent-child interaction in the UK (G1)
Dr Rachel Brocklebank

1425-1440  Identity and empowerment: a qualitative study of teenagers with developmental coordination disorder (G2)
Dr Raghu Lingam

1440-1455  Primary prevention of childhood obesity: views from primary care (G3)
Dr Sarah Redsell

1455-1535  Guest lecture - Participation for children at the margins
Miss Camilla Batmanghelidjh, Kids Company, London

1535-1605  Tea

CHAIRMAN  Dr Jane Ritchie, Livingston, Child Public Health Interest Group

1605-1620  Can a paediatric nurse-led community service reduce acute hospital admissions? (G4)
Mrs Lisa Langton

1620-1635  What are the views of local people about Vitamin D and its health effects: a community focus group study (G5)
Dr Kartik Chandaria

1635-1650  Could the Sheffield Birth Score support an intervention programme to reduce infant mortality? (G6)
Dr Robert Coombs

1650-1730  Guest lecture  How listening to children and young people should inform policy
Professor Sir Al Aynsley-Green Kt, Professor Emeritus of Child Health, University College, London
1200-1300  British Society of Paediatric Gastroenterology, Hepatology and Nutrition business meeting (members only)

1215-1300  Lunch

1230-1345  British Paediatric Respiratory Society business meeting (members only)

1300-1400  Poster viewing

CHAIRMAN: Dr Mark Beattie, Southampton, President of BSPGHAN and Professor Jonathan Grigg, London

1400-1415  Outcome of children with chronic intestinal failure up to 20 years after discharge home on treatment with intravenous/parenteral nutrition (G7)
            Dr Susan Hill

1415-1430  Dexamethosone for the treatment of acute bronchiolitis: a systematic review (G8)
            Miss Jemima Finkel

1430-1445  Biological therapy for paediatric IBD: effective but associated with financial and safety issues (G9)
            Dr Fiona Cameron

1445-1500  Serum vitamin D levels and severe therapy resistant asthma in children (G10)
            Dr Atul Gupta

1500-1530  Guest lecture
            Reflux and lung disease, what is the evidence? The spectrum of aspiration lung disease
            Dr Colin Wallis, Consultant Paediatrician, Respiratory Unit, Great Ormond Street Hospital, London
            How can we prove reflux and aspiration?
            Dr David Rawat, Consultant Paediatric Gastroenterologist, The Royal London Hospital

1530-1600  Poster viewing and tea

CHAIRMEN: Dr Nicholas Croft, London, (BSPGHAN) and Dr Colin Wallis, London, (BPRS)

1600-1615  Hypoallergenic formulae for cow's milk protein intolerance: the huge variation in prescribing practice across Wales (G11)
            Dr David Tuthill

1615-1630  The impact of H1N1 influenza on acute respiratory infections in pre-school children in North East Brazil (G12)
Dr David Fawkner-Corbett

1630-1645  Do infants with weight faltering subsequently catch-up? (G13)
Dr Pauline Emmett

1645-1700  Variation in cyanide production between different strains of *pseudomonas aeruginosa* (G14)
Dr Francis Gilchrist

1700-1800  Guest lectures Obesity hour

1700-1715  Epidemiology and evidence for the management of obesity
Dr David Wilson, Consultant in Paediatric Gastroenterology and Nutrition, Royal Hospital for Sick Children, Edinburgh

1715-1730  Respiratory complications of obesity
Dr James Paton, Consultant Paediatrician, Royal Hospital for Sick Children, Glasgow

1730-1800  Bariatric surgery in children and adolescents
Mr Majid Hashemi, Consultant Upper Gastrointestinal and Bariatric Surgeon University College London Hospitals

POSTERS:

Roux-en-Y: the route to successful long-term jejunal feeding (G15P)
Dr David Wilson

Double-balloon enteroscopy in children: a tertiary care experience (G16P)
Dr Arun Urs

Osmotic and stimulant laxatives for the management of childhood constipation (G17P)
Dr Morris Gordon

A survey of healthcare professionals' awareness of vitamin D supplementation in pregnancy, infancy and childhood: midwives, GPs and health visitors have their say (G18P)
Dr Vandana Jain

The value of faecal calprotectin in the investigation of suspected early-onset inflammatory bowel disease (G19P)
Dr Aoife Casey

Synbiotics for inflammatory bowel disease: useful in adults but problematic in paediatrics (G20P)
Dr Richard Hansen

Relapse rate following azathioprine withdrawal in maintaining remission for Crohn's disease: a systematic review and meta-analysis (G21P)
Miss Helen French

A case–control study of nutritional factors associated with chronic suppurative otitis media in Yemeni children (G22P)
Dr Mohamed Elemraid

Routine use of inflammatory markers in paediatric inflammatory bowel disease (G23P)
Dr Charles Charlton

The role of endoscopy and biopsy in the management of severe gastrointestinal disease in cystic fibrosis patients (G24P)

Dr Hui-Leng Tan

Terminal ileal biopsy, small bowel imaging and upper GI endoscopy are all required for the efficient diagnosis of paediatric Crohn’s disease (G25P)

Dr Robin Dart

Does the introduction of a paediatric specialist coeliac clinic in the district general hospital improve adherence to BSPGHAN guidelines for management of coeliac patients? (G26P)

Dr Lisa Whyte

Catch-up growth after use of infliximab in children with inflammatory bowel disease (G27P)

Dr Shyla Kishore

Changes in the management of functional constipation by paediatricians after the introduction of NICE guidance (G28P)

Dr Morris Gordon

Barriers to effective vitamin D supplementation during ante-natal care (G29P)

Dr Rebecca Ling
1230-1330  Paediatric Education Special Interest Group
business meeting

CHAIRMAN: Dr Will Carroll, Derby

1330-1415  Guest lecture  Great graduation divide: spanning the gap in teaching child health
Professor Ed Peile, Professor Emeritus (Medical Education), University of Warwick

1415-1430  Is a short e-learning course effective at improving paediatric prescribing skills amongst Foundation doctors? An open label randomised controlled trial (G30)
Dr Morris Gordon

1430-1445  Meeting adolescents in their own environment: an opportunity to learn how to listen and communicate with young people (G31)
Dr Karin Straathof

1445-1500  Paediatric trainees learn how to approach child bereavement with the help of bereaved parents (G32)
Dr Melanie Menden

1500-1515  Can paediatricians engage in local GP learning events effectively? A successful model based on reflective feedback (G33)
Dr Venkatasubramanian Ganesan

1515-1530  Tea

CHAIRMAN: Dr Charlie Charlton, Nottingham

1530-1545  ‘Signpost’: an innovative online solution to mapping resources to curriculum competences (G34)
Dr Nicholas Prince

1545-1600  EWTD: incompatible with subspecialty training? (G35)
Dr Richard Hansen

1600-1615  A career in paediatrics: views of Foundation doctors (G36)
Dr Rajev Kainth

1615-1630  360 degree tool assessing ability of Specialist Registrar to lead ward rounds (G37)
Dr Indumathy Lakshminarayana

1630-1700  Guest lecture  Technology assisted learning at the coalface: what’s new and what works
Dr Will Carroll, Consultant Paediatrician, Derbyshire Children’s Hospital

1700-1715  Adjudication of Trainees Prize and closing remarks
George Still Forum

1230-1330  Annual General Body Meeting: launch of practice parameters
Chairman:  Dr Hani Ayyash, Doncaster

1330-1345  Is ADHD a disease of affluence? A local authority experience in the North-West of England (G38)
            Dr Michael Ogundele

1345-1400  ADHD management and disability register: an electronic aid for the NICE guideline implementation (G39)
            Dr Michael Ogundele

1400-1445  Guest lecture  Foetal alcohol syndrome and ADHD
            Dr Raja Mukherjee, Consultant Psychiatrist, Surrey and Borders Partnership NHS Foundation Trust

1445-1515  Tea  Helen Martin Studio

1515-1600  Guest lecture  ADHD and comorbid DCD
            Professor Amanda Kirby, Professor of Developmental Disorders in Education and Medical Director, The Dyscovery Centre based at the University of Wales, Newport

1600-1700  Workshop: Management of ADHD
            Dr Geoff Kewley, Consultant Paediatrician, Director of Learning Assessment and Neurocare Centre, Horsham
            Dr Chris Steer, Consultant Paediatrician, Victoria Hospital, Kirkcaldy

1700  Concluding remarks and close
CHAIRMAN: Dr Christine Burren, Bristol

1300-1330 Guest lecture  Human imprinting disorders: lessons from the study of neonatal diabetes
Professor Karen Temple, Human Genetics Division, University of Southampton

1330-1345 Clinical outcome of congenital adrenal hyperplasia one year following diagnosis: a UK-wide study (G40)
Dr Rachel Knowles

1345-1400 Repeat testing of TSH in preterm infant for congenital hypothyroidism (G41)
Dr Ramesh Srinivasan

1400-1415 Audiology follow-up reveals a high incidence of hearing impairment in patients with congenital hypothyroidism (G42)
Dr Philippa Prentice

1415-1430 Phenotypic spectrum of m.3243A>G mitochondrial DNA mutation in children (G43)
Dr Victoria Nesbitt

1430-1445 A new mode of inheritance! (G44)
Dr Bindu Koodiyedath

1445-1515 Tea

CHAIRMAN: Dr Kay Metcalfe, Manchester

1515-1545 Guest lecture  Monogenic diabetes in children
Professor Sian Ellard, Consultant Molecular Geneticist, Peninsula College of Medicine and Dentistry, University of Exeter and Plymouth

1545-1600 Cardiac abnormalities in children with congenital hyperinsulinism (G45)
Dr Anjali Petkar

1600-1615 Endocrine and hypothalamic outcomes following transsphenoidal and transcranial surgery in selected paediatric patients with craniopharyngiomas are comparable (G46)
Dr Esieza Ikazoboh

1615-1630 Auditing the investigation of Turner syndrome at presentation (G47)
Dr Esther Godfrey

1630-1645 Monitoring progress in a multi disciplinary team Prader Willi syndrome clinic: all is not always what it seems (G48)
Mr Chris Smith

1645-1700 4H syndrome, dento-leukoencephalopathy or a new syndrome? (G49)
Dr Gyan Sinha
CHAIRMAN: Dr Adrian Dighe, Bath

1330-1415 Guest Lecture  Ears and airways in children with Down syndrome (G50)
Mr Patrick Sheehan, Consultant Paediatric Otolaryngologist, Royal Manchester Children's Hospital

1415-1430 Improvement in neonatal hearing loss following treatment with thyroxine (G51)
Dr Veronica Hickson

1430-1445 Audit of adherence to regional guidelines on audiological assessments for children with a cleft palate (G52)
Dr Gillian Painter

1445-1500 Are we losing opportunities for early identification of children with developmental difficulties with the loss of experienced paediatricians from clinical audiology services? (G53)
Dr Cecilia Whylie

1500-1530 Tea

1530-1615 Guest Lecture  Auditory processing disorder in children: an overview
Dr Piers Dawes, Audiology and Deafness Research Group, University of Manchester School of Psychological Sciences

1615-1630 Diagnosis and management of permanent childhood hearing impairment using the newborn hearing screen (G54)
Dr Diluki Kevitiyagala

1630-1645 Three case studies of children with late onset or progressive hearing loss (G55)
Dr Susan Shah

1645-1700 Permanent unilateral deafness identified by newborn hearing screening: yield of aetiological medical investigations and the association with risk factors, audiological profile and stability of hearing loss (G56)
Dr Sudhira Ratnayake

1700-1715 Acquired, late onset and progressive hearing loss: data from one newborn hearing screening site (G57)
Dr Susan Rose

1715-1800 Discussion and close of meeting

POSTERS:

Audit of high gentamicin levels and hearing assessment (G58P)
Dr Kumara Swamy

Improving hearing assessment of children post-meningitis: 7 years on and have we maintained our standards? (G59P)
Dr Martin Edwards
