Joining Together For Better Care

The British Paediatric Surveillance Unit, Rare disease UK, and the RCPCH Youth Advisory Panel invite you to enjoy afternoon tea and cakes. You will be able to hear the experiences of children living with rare diseases, policymakers, researchers and professionals perspectives.

20th March 2014
14:30 - 17:00
5-11 Theobalds Road - RCPCH offices
London
WC1X 2SH

bpsu@rcpch.ac.uk
Rare Disease UK, The British Paediatric Surveillance Unit and the RCPCH Youth Advisory Panel invite you to enjoy afternoon tea and cakes. This event is intended to be an informal networking opportunity, bringing together patients and carers, healthcare professionals, researchers and policy-makers.

The main objective of Rare Disease Day is to raise awareness amongst the general public and decision-makers about rare diseases and their impact on patients’ lives.

The campaign targets primarily the general public but it is also designed for patients and patient representatives, as well as politicians, public authorities, policy-makers, industry representatives, researchers, health professionals and anyone who has a genuine interest in rare diseases.

Since Rare Disease Day was first launched by EURORDIS and its Council of National Alliances in 2008, more than 1000 events have taken place throughout the world reaching hundreds of thousands of people and resulting in a great deal of media coverage.

This year’s theme is Care with the strap line Join together for better care - http://www.eurordis.org/sites/default/files/rare-disease-day-2014-theme-slogan.pdf.
