The Royal College of Paediatrics and Child Health is delighted to announce that round 3 of the UK collaborative clinical audit of health care for children and young people with suspected epileptic seizures, better known as:

“Epilepsy12”

began on 1 April 2017 as part of the National Clinical Audit and Patient Outcomes Programme

In round 3, Epilepsy12 aims to:

- Continue to measure and improve care and outcomes for UK children and young people with epilepsies
- Include all children and young people with a new onset of epilepsy
- Enable continuous patient ascertainment
- Use a pragmatic and concise dataset
- Incorporate NICE Quality Standards, Mental Health, Educational and Transition metrics
- Obtain approval to include patient identifiers to allow local real-time individual and service dashboard elements within the audit reporting platform

The RCPCH is working closely with key stakeholder organisations to ensure that all of the above elements are developed in a manner which best serves the whole paediatric epilepsy community.
