| **B Physical Examination** | 1. Well-structured, systematic exam technique.  
2. Appropriate care taken to adapt to needs of patient. Permission to examine sought.  
3. Appropriate use of equipment. | 1. Exam technique lacking some structure.  
2. Limited adaptation to meet needs of patient.  
2. Poor adaptation to patient needs. Lack of care. No attempt to seek permission.  
3. Incorrect or no use of equipment |
| **C Identification of Clinical Signs** | 1. Identifies clinical signs that are present.  
2. Correctly interprets clinical signs that are present. | 1. Misses a few less important signs.  
2. Some minor errors in interpretation of signs. | 1. Misses one or more important clinical signs and/or describes nonexistent signs/invents signs  
2. Significant errors in interpretation of signs. |
| **D1 Clinical Reasoning** | 1. Formulates & proposes likely appropriate differential diagnosis  
2. Understands implications of findings.  
3. Able to suggest appropriate steps if exam inconclusive. | 1. Incomplete differential diagnosis.  
2. Unsure about implications of findings.  
3. Lacks confidence as to appropriate steps if exam inconclusive. | 1. Inappropriate &/or inadequate differential diagnosis offered.  
2. Lacks insight into implications of findings. Poor understanding/lack of knowledge with significant implications. Wrong & confident.  
3. Unable to form coherent & sensible suggestions if exam inconclusive. |
| **E1 Communication Skills: Rapport & Communication Style** | 1. Appropriate level of confidence; greeting and introduction; professional; sensitive; appropriate body language; responds to verbal & non-verbal cues.  
2. Develops appropriate rapport with patient/parent/carer or colleague. Puts at ease.  
2. Develops reasonable level of rapport; could do more to engage patient/parent/carer or colleague.  
3. Approach to clarifying role & agenda, (pace & tone) needs improvement. | 1. Poor body language & non-verbal skills, unprofessional manner, insensitive or overconfident  
2. Poor rapport or detached. Fails to put patient/parent/carer or colleague at ease.  
3. No clarification of role. Inappropriate tone & pace. |
