Intervention	1466.23	0.00		
Overall total	7573.32	7603.03	611.06	-1230

- No statistically significant differences between the groups
- Overall total costs are the same in each group despite additional cost of MICE
- Additional cost of MICE was offset by lower hospital costs
- In adjusted analyses, costs are slightly higher in the MICE group
