Wednesday 6 April 2011

British Association of Perinatal Medicine
British Congenital Cardiac Association

CHAIRMAN: DR DAVID MABIN

1330-1345 Exposure to maternal methadone in utero: visual and developmental outcomes at six months (G60)
Dr Laura McGlone

1345-1400 Randomised trial comparing assist control and pressure support ventilation during weaning (G61)
Dr Deena Shefali-Patel

1400-1430 Guest lecture Inotropic support in the neonate
Dr Nim Subhedar, Liverpool Women's NHS Foundation Trust

1430-1500 Guest lecture Neonatal cardiac function
Dr Alan Groves, Neonatal Unit, Queen Charlotte’s and Chelsea Hospital, London

1500-1515 Do Pakistani babies have more congenital heart defects? Preliminary findings from our birth cohort study (G62)
Dr Pallavi Agadoorappa

1515-1530 Transoesophageal echocardiography using the miniaturised multiplane probe during paediatric cardiac intervention in children below 5.5 kg: an initial experience (G63)
Dr Nitha Naqvi

1530-1600 Tea

CHAIRMAN: DR ALAN FENTON

1600-1615 Neonatal nursing efficacy: practical standards of nursing care provision in a newborn network (G64)
Dr Thillagavathie Pillay

1615-1630 Changes in postnatal transfers and place of delivery following introduction of managed neonatal networks in England (G65)
Dr Chris Gale

1630-1645 Does RSV infection cause pulmonary hypertension in children undergoing cardiac surgery? (G66)
Dr Robert Tulloh

1645-1700 Mitochondrial disease is a common cause of severe cardiomyopathy in children (G67)
Dr Matthew Bates

1700-1730 Guest lecture The uncertainties of managing PDA and the proposed OSCAR trial
Dr Samir Gupta, Consultant Neonatologist, North Tees University Hospital, Stockton-on-Tees

1730-1800 Guest lecture Catheter occlusion of PDA in preterm neonates
Dr Jamie Bentham, Department of Paediatric Cardiology, Great Ormond Street Hospital, London
<table>
<thead>
<tr>
<th>Time</th>
<th>Session</th>
</tr>
</thead>
</table>
| 1230-1300| Guest lecture  Preventing perinatal brain damage  
Professor David Edwards, Weston Professor of Neonatal Medicine, Imperial College, London |
| 1300-1400| Lunch                                                                                                                                     |
| 1330-1400| British Academy of Child Disability business meeting  
CHAIRMAN: Dr Peter Baxter, Sheffield |
| 1400-1430| Guest lecture  How does cranial imaging relate to outcome?  
Professor Mary Rutherford, Professor in Perinatal Imaging, Imperial College, Hammersmith Hospital, London |
| 1430-1445| Guest lecture  2010 medical movement therapies in the UK  
Dr Charlie Fairhurst, Consultant in Paediatric Neurodisability and Consultant Neuropaediatrician, Guy’s and Saint Thomas’ NHS Trust, London |
| 1445-1500| Spinal demyelination in acute disseminated encephalomyelitis: a risk factor for recurrent demyelination? (G68)  
Dr Didu Kariyawasam |
| 1500-1515| A web-based survey of impact and experience of young people with epilepsy (G69)  
Dr Vanessa Rippon |
| 1515-1530| Comparison of seizure characteristics in full term neonates with stroke and hypoxic ischemic encephalopathy (G70)  
Dr Niamh Lynch |
| 1530-1600| Tea                                                                                                                                       |
| 1600-1615| The Bayley-iii cognitive and language scales: how do scores relate to the Bayley-ii? (G71)  
Dr Tamanna Moore |
| 1615-1630| What is the evidence for atypical feeding behaviour assessment tools in children with an autistic spectrum disorder? (G72)  
Dr Stefan Studnik |
| 1630-1700| Guest lecture  Therapeutic interventions in movement disorders  
Dr Paul Eunson, Consultant Paediatric Neurologist, Royal Hospital for Sick Children, Edinburgh |

**POSTERS:**

Hydrocephalus outcome: validation of endoscopic third ventriculostomy success score (G73P)  
Dr Andrew Durnford

Bone health in a cohort of Irish Duchenne muscular dystrophy patients (G74P)  
Dr Niamh McSweeney
Headaches: did you sleep well? (G75P)
Dr Karthikeyan Palanivelu

A qualitative study investigating coping strategies in families with more than one autistic child (G76P)
Dr Imogan Waterson

Oral Salbutamol in two wheelchair-bound cases of SMA Type II (G77P)
Dr Siew Tan

Children with cerebral palsy and drooling: their clinical profile and management (G78P)
Dr Maralla Rekha

Use of topiramate for prophylaxis of chronic migraine in children: a systematic review (G79P)
Dr Sathiya Jayapal
CHAIRMAN: Professor Lawrence Weaver, Glasgow

1430-1515  George Armstrong Lecture  
Poverty has its penalties: the hospital evidence of childhood diseases in Victorian and Edwardian Britain  
Dr Andrea Tanner, Research Fellow in History, Faculty of Arts and Social Science, Kingston University, Kingston upon Thames

1515-1530  Tea

1530-1555  Physician, poet, polymath and prophet: Erasmus Darwin, a new window on eighteenth-century child health care (G80)  
Dr Andrew Williams

1555-1620  Two giants in child health (G81)  
Dr Mary Lindsay

1620-1645  Epidemiologic issues and studies of childhood cancer survivorship in the United States, 1970-2010: an historical overview (G82)  
Professor Robin Rohrer

1645-1710  Beyond stereotypes: a historical analysis of how autism spectrum disorder is depicted in movies, 1962-2010 (G83)  
Dr Anjay Pillai
1200-1300 Poster viewing

1300-1400 British Society of Paediatric Dermatology business meeting
1300-1400 British Paediatric Allergy, Immunology and Infection Group

CHAIRMEN: Dr Saul Faust, Southampton
Dr Pamela McHenry, Glasgow

1400-1430 Guest lecture The management of toxic epidermal necrolysis
Dr Anna de Sica Chapman, Department of Dermatology, Queen Elizabeth Hospital, London

1430-1500 Guest lecture Staphylococcal and streptococcal toxin-mediated diseases
Professor Shiranee Sriskandan, Department of Medicine, Hammersmith Hospital, London

1500-1515 Vancomycin dose and drug monitoring in paediatrics (G84)
Dr Elizabeth Starkey

1515-1530 Hospital-acquired bacteraemia among children admitted to a London tertiary hospital as a measurement of neonatal and paediatric healthcare-associated infection (G85)
Dr Andres Perez Lopez

1530-1545 Nitric oxide-mediated dispersal and enhanced antibiotic sensitivity in * pseudomonas aeruginosa* biofilms from the cystic fibrosis lung (G86)
Dr Katrina Cathie

1545-1600 Surveillance of congenital cytomegalovirus in the United Kingdom and Ireland (G87)
Dr Claire Townsend

1600-1630 Tea

CHAIRMEN: Dr Olivia Schofield, Edinburgh
Dr Delane Shingadia, Southampton

1630-1700 Guest lecture Meningoccal B vaccines
Professor Andrew Pollard, Director, Oxford Vaccine Group, Department of Paediatrics, University of Oxford and John Radcliffe Hospital, Oxford

1700-1730 Guest lecture Dermatological conundrums
Dr Pamela McHenry, Department of Dermatology, Royal Hospital for Sick Children, Glasgow

POSTERS:

An audit assessing the incidence, prevalence and quality of management of neurocognitive disorders in 88 HIV positive children (G88P)
Mr Marcello Scopazzini

Exploration of the factors influencing parental decisions to allow their children to participate in clinical trials in paediatric infectious diseases (G89P)
Ms Sophie Douglas
National surveillance study of extended spectrum β lactamase producing organism infection in neonatal units of England and Wales (G90P)
Dr Subhabrata Mitra

Phlebotomy tourniquets: vectors for bacterial pathogens (G91P)
Dr Laura Kane

Ingestion of *staphylococcus aureus* by neutrophils from patients with cystic fibrosis and the effect of surfactant protein-D (G92P)
Miss Antonia Timmis

Developing an allergy specific patient reported experience measure (G93P)
Ms Bridget Hopwood

A randomised maternal evaluation of epinephrine auto-injection devices (G94P)
Dr Josephine Brown

A unified airway approach to a national care pathway for children with asthma and/or rhinitis (G95P)
Professor John Warner

Ear today gone tomorrow: routine neonatal ear canal cultures are not useful predictors of early onset invasive bacterial sepsis (G96P)
Dr Anna Battersby

Prevalence of allergic conditions is higher in general paediatric inpatients than the general population: results of an inner-city general paediatric inpatient survey (G97P)
Dr Eva Loucaides

Prevalence of skin disorders in HIV infected children and their association with CD4 count (G98P)
Dr Srinivas Bandi

Prescribing adrenaline injection (Epipen) for anaphylaxis in primary care: a survey (G99P)
Dr Ved Arya

A strep in the wrong direction: invasive group A streptococcal disease (G100P)
Dr Sara Mitchell

A case series of children in a UK hospital infected with Panton-Valentine leucocidin positive *staphylococcus aureus*: features of an important emerging infection (G101P)
Dr Yolande Knight

Management of children at risk of anaphylaxis in schools: a pilot survey of practice (G102P)
Dr Karen Job

Kingella infections in children: a child with small ventricular septal defect and endocarditis (G103P)
Dr Deepu Abraham

Trauma, nasal obstruction, epistaxis: a rare presentation of tuberculosis in the UK (G104P)
Dr Onajite Etuwewe

Management and outcome of candida blood stream infections within a regional paediatric hospital (G105P)
Dr Betty Wamola

Panhypopituitarism after tuberculous meningitis with suprasellar abscess (G106P)
Dr Dhaara Iyer

A novel cluster of rotavirus-associated neurological symptoms (G107P)
Dr Thomas Day

Acute bacterial myositis as the initial manifestation of HIV infection (G108P)
Dr Srinivas Bandi

Mumps encephalitis with brainstem involvement: significant morbidity and diagnostic dilemmas (G109P)
Dr Rachel Atkinson

Pitfalls in the diagnosis of neonatal herpes infection and learning from our mistakes: a report of a case of disseminated neonatal herpes simplex with treatment failure (G110P)
Dr Malihe Ghazavi

Acute disseminated encephalomyelitis as a consequence of atypical meningitis (G111P)
Dr Jonathan Fleming

The management of atopic eczema by general paediatricians in a district general hospital (G112P)
Dr Chamaleena de Silva

An unusual case of neonatal erythroderma (G113P)
Dr Mairi MacInnes
CHAIRMEN: Dr Colin Powell, Cardiff
             Dr Damian Wood, Nottingham

1315-1330  Current trends in Irish infant and paediatric mortality G114)
             Dr Cliona McGarvey

1330-1345  Audit of triage tools to recognise seriously ill children with fever: should we change?
             (G115)
             Dr Shakira Balogun

1345-1400  Adverse drug reactions in children: reports to the UK yellow card scheme 2000-2009
             (G116)
             Dr Daniel Hawcutt

1400-1415  Learning from the experts: working with the education profession during the
             development of a health education programme for children and young people (G117)
             Dr Katherine Price

1415-1430  Participation of young selectors in the recruitment of paediatric specialty trainees (G118)
             Dr Chantelle Mann

1430-1445  Paediatric stabbing and child protection: a pan-London perspective (G119)
             Dr John Apps

1445-1500  Charted observations and the use of a paediatric warning tool did not predict the
             majority of cardio-respiratory arrest calls in a paediatric hospital (G120)
             Dr David Wright

1500-1515  Health of children born to mothers aged 40 years or over: analyses of two national
             cohort studies (G121)
             Dr Alastair Sutcliffe

1515-1545  Tea with poster walk

CHAIRMAN: Liz Didcock  Nottingham

1545-1715  Symposium: Sex and development in children and young people: from DSD to gender
dysphoria

1545-1615  Endocrine aspects
             Dr Tabitha Randell, Consultant in Paediatric Endocrinology, Nottingham Children’s
             Hospital

1615-1645  Surgical aspects
             Mr Alun Williams, Consultant Paediatric Surgeon, Nottingham Children’s Hospital

1645-1715  Psychological aspects
             Dr Polly Carmichael, Director and Consultant Clinical Psychologist, The Taistock and
             Portman Foundation Trust

1715-1745  Panel discussion
A stand-alone ambulatory care unit for acute paediatric services: how safe is it? (G122P)
Dr Veena Bisht

Recognition of overweight-obesity in children: are paediatricians missing the opportunity in outpatient clinics? (G123P)
Dr Vishnupriya Gali

An analysis of successful litigation claims in children (G124P)
Dr Joseph Raine

The use of hypotonic fluids in paediatric practice (G125P)
Dr Jane Baker

Cerebral venous sinus thrombosis: risk factors and outcomes (G126P)
Dr Nevine Ismail

To assess the effectiveness of implementing audit recommendations in improving the service provided at a prolonged jaundice clinic in a district general hospital in the UK (G127P)
Dr Priya Ramaswamy

Vitamin D and parental knowledge (G128P)
Dr Vinod Sharma

Diagnosis and management in the child with suspected septic arthritis: a 14 year retrospective study and review of the evidence (G129P)
Dr Edward Holloway

A systematic review of frenotomy for ankyloglossia (tongue tie) in breast fed infants (G130P)
Mr Andrew Constantine

How confident are general paediatricians at assessing and managing obesity in childhood? (G131P)
Dr Megan Turner

21st century children: do they still think like 20th century children? (G132P)
Ms Dawn Collins

Barriers to medication adherence in adolescents within a school environment (G133P)
Dr Wendy Gidman

Adolescent alcohol presentations to paediatric A&E: snapshots over a decade (G134P)
Dr Stacey John-Legere

Substance misuse in looked after children of North East Lincolnshire (G135P)
Dr Nitin Panwar

A review of transition arrangements from paediatric to adult services (G136P)
Miss Sarah Lau

Perspectives of patients with chronic gastrointestinal conditions and their carers on transition from paediatric to adult health care services: results of a pilot study (G137P)
Dr Venkata Punaganti

Medical and surgical admissions to a district general hospital: the need for specialist adolescent services (G138P)
Dr Rachel Downey

A systematic review of participation of young people in healthcare (G139P)
Dr Rachel Watts

Parental stress factors in a community paediatric case load (G140P)
Dr Fawzia Rahman
CHAIRMAN: Dr Justin Davis, Southampton

1315-1400  Guest lecture  
Dr Rukshana Shroff, Consultant Paediatric Nephrologist, Department of Nephrology, Great Ormond Street Hospital, London

1400-1415  Osteoporosis in paediatric Crohn’s disease: influence of immune cells on proliferation of the osteoblast like cell line Saos2 (G141)  
Dr Gareth Penman

1415-1430  Hypocalcaemic convulsions due to vitamin D deficiency may masquerade as simple febrile convulsions (G142)  
Dr Priscilla Julies

1430-1445  Activating mutation of calcium sensing receptor: a single centre experience (G143)  
Dr Shaila Sukthankar

1445-1500  Primary hyperoxaluria type 3 in children with renal calculi (G144)  
Dr William van’t Hoff

1500-1515  Renalradar: a model for studying rare disease in the UK (G145)  
Dr Hugh McCarthy

1515-1530  A 5 year review of Henoch Schönlein purpura at a tertiary paediatric hospital (G146)  
Dr Amanda Richardson

1530-1600  Tea

CHAIRMAN: Professor Moin Saleem, Bristol

1600-1645  Guest lecture  From molecules to Meccano: metabolic disease from an orthopaedic perspective  
Mr Fergal Monsell, Consultant Paediatric Orthopaedic Surgeon, Bristol Royal Hospital for Children

1645-1700  Prevalence and predictors of anaemia in European children on dialysis (G147)  
Dr Leah Krischock

1700-1715  The medium term outcome of chronic dialysis in children under the age of two (G148)  
Dr Helen Jones

1715-1730  Nephrotic range albuminuria as a feature of arthrogryposis, renal dysfunction and cholestasis syndrome: three new cases (G149)  
Dr Amelia Holme

1730-1745  Urinary cytokines comparison between mice with experimentally induced nephrotic syndrome versus those with experimentally induced pyrexia (G150)  
Dr Hassib Narchi

1745-1800  Detection of renal scars by transplant renal ultrasounds and DMSA scans after urinary tract infections in paediatric renal transplant recipients (G151)  
Dr Cheetan Singh
Ethics and Law Forum

CHAIRMAN: Dr Vic Larcher, London

1400-1415  Management of cardiac problems in trisomy 18: a major ethical dilemma; a case series review (G152)
Dr Vishnupriya Gali

1415-1430  Another ethical dilemma in neonatology (G153)
Dr Syes Ahmed

1430-1445  Would an English court find non-therapeutic circumcision of incompetent children lawful? (G154)
Mr Robert Wheeler

1445-1500  ‘Stary Doctor’: the old doctor Janusz Korczak (G155)
Dr Witold Cieslak

1500-1530  Tea

1530-1630  Debate: this house believes that rationing of children’s healthcare is unavoidable and ethically justified

1630-1645  Summary of session and call for future session planners
