Foreword

The Second Joint Chief Inspector’s Report on arrangements to Safeguard Children published in July 2005 identified the need for NHS organisations to have clear guidance on role definitions and specifications for named and designated health professionals who have specific responsibility for child protection.

*Safeguarding children and young people: roles and competencies for health care staff* produced by the Royal Colleges and professional organisations will be a valuable tool for NHS organisations and others in clarifying the competencies required by these doctors, nurses and midwives as well as identifying the competency levels required by all health staff to safeguard children. It supplements the information set out in Working Together to Safeguard Children, 2006, and has been developed with advice from Skills for Health.

We are delighted to commend this document to you as a means of supporting Primary Care Trusts, NHS Trusts and Foundation Trusts in meeting their duty to make arrangements to safeguard children and promote their welfare set out in section 11 of the Children Act 2004.

Sir Liam Donaldson  
Chief Medical Officer

Professor Christine Beasley CBE  
Chief Nursing Officer
Background

Following every serious case of child abuse or neglect there is considerable consternation that greater progress has not been made to prevent such occurrences. Reviews and enquiries across the UK, over the last three decades, often identify the same issues - among them, poor communication and information sharing between professionals and agencies, inadequate training and support for staff, and a failure to listen to children (Ref.1).

Lord Laming’s inquiry report into the care of Victoria Climbie (Ref. 2) refocused the government’s attention on the needs of children and young people (Ref.3). Amongst the many recommendations Lord Laming advocated that professional bodies should be requested to develop models of continuing education/professional development for practitioners engaged in child protection work (Ref.2). In addition organisations such as the Commission for Social Care Inspectorate have recently called upon professional organisations to provide greater clarity in relation to the remit of specific child protection roles (Ref. 4).

However, all who come into contact with children and young people have a duty to safeguard and promote their welfare and should know what to do if they have any concerns. Standards for practice, assessment tools and guidelines to assist practitioners in the field of child protection have been developed across the UK (Ref. 5-35). The aim of this document is to provide all health care staff with a generic framework, within which professional group training programmes can be developed, to meet the needs of specific practitioners depending upon their particular role in relation to children and young people.

The document is divided into two parts:

• section A contains a generic competency framework.
• section B contains specific role descriptions for professionals undertaking lead, named and designated roles in child protection.
**Section A: generic competency framework**

“Child protection training is essential for all health professionals engaged in services for children. It is not an optional extra.” (Mr. Barry Capon, chair of independent inquiry into the death of Lauren Wright, 2002)

All health care organisations have a duty under the Children Act 2004 to make arrangements to safeguard and promote the welfare of children and young people. Chief Executives will need to ensure that all staff are able to meet this requirement. Staff groups will have different training needs to fulfill their duties, depending on their degree of contact with children and young people and their level of responsibility. This generic knowledge and skills framework developed by members of professional organisations will assist health care professionals to identify, plan and deliver the training and education needs across the range of their employees. For some employees this may require significant investment in training.

Six levels of competency have been identified, but in reality there will be a continuous spectrum of competency required, and while examples have been given, these need to be considered as guidance rather than absolute requirements. The important issue is that people are appraised, and trained, based on their roles relating to safeguarding, and children and families.

---

1. CPHVA, RCGP, RCM, RCN, RCPCH

2. Specific documents related to individual professional groups also exist i.e. RCGP child protection competencies, NSCAN, RCN, RCPCH (NB. The NSCAN document will provide a detailed link between the generic competency framework, roles and the NHS knowledge and skills framework).

3. It should be noted that the framework does not specifically identify child protection roles which may be in place to meet local circumstances and need i.e. Nurse Consultant or advisory roles.

Continued...Level 3: all staff working predominately with children, young people and parents

| Knowledge cont. | • Be aware of how own beliefs, experience and attitudes might influence professional involvement in child protection work.  
• Know what to do when there is an insufficient response from other organisations or agencies, while maintaining the focus on what is in the child or young person’s best interests. |
| Skills | • As level 2.  
• Be able to undertake an assessment of risk.  
• Be able to work [as part of the multi-disciplinary team] with children, young people and their families where there are child protection concerns.  
• Be able to present child protection concerns verbally and in writing for case conferences/court proceedings, core groups, strategy meetings and family group conferences.  
• Be able to identify and outline the management of children in need.  
• Be able to instigate measures to reduce the risk of child abuse occurring.  
• Be able to make considered decisions on whether concerns can be addressed by providing or signposting to sources of information or advice.  
• Be able to make considered judgements about how to act to safeguard and promote a child or young person’s welfare. |
| Criteria for assessment | • As level 2.  
• Demonstrates advanced knowledge of patterns and indicators of child maltreatment.  
• Demonstrates knowledge of the structure and functioning of ACPC/LCSBs [or equivalents].  
• Demonstrates understanding of information sharing issues related to child protection and children in need.  
• Demonstrates in-depth knowledge of each agency’s role and responsibilities within local policies and procedures. |
| Method | • Multidisciplinary/multi-agency training: report reviews, report writing, understanding roles and responsibilities of other agencies, signs and symptoms-interpretation of borderline signs and symptoms.  
• Annual refresher update training or equivalent i.e. distance learning, reflective practice, shadowing a colleague or participation in child protection quality assurance processes. |
## Level 4: specialist roles - named professionals

Continued...Level 4: specialist roles - named professionals

Skills cont..

- Be able to undertake training needs analysis, teach and educate health service professionals.
- Be able to review, evaluate and update local guidance in light of research findings.

Criteria for assessment

- As level 3.
- Demonstrates appropriate and effective learning strategies to enable competence development for staff at different levels.
- Demonstrates development of evidence based clinical guidance.
- Demonstrates effective consultation with other health care professionals and participation in interdisciplinary discussions.
- Demonstrates participation in audit, design and evaluation of service provision, including formulation of action plans and strategies to address issues raised by audit and serious case reviews.

Method

- Five sessions [or equivalent on-going learning equating to 2 ½-3 days] a year CPD to cover quality assurance, chairing meetings, supervision and appraisal, teaching training.
- Participation in specialist professionals/support groups or peer support networks at local and national level.

ENTO L3 Identify individual learning aims and programmes (also HI 37).

Initiate, and participate in, networks and discussion groups.

*Skills for Health are in the process of developing National Workforce competencies across aspects of care to underpin all future training and education programmes. Links are provided to detailed competencies already developed in this specific area.*
Section B: Role descriptions

These role descriptions are appended to the competency framework for guidance and to aid interpretation of the competency statements. They have been developed independently and collaboratively by a number of professional organisations. The information contained in these role descriptions has been updated during the production of the competency element of this document. These role descriptions are generic and NHS organisation terminology will vary slightly between the four UK nations. Further work will be undertaken by professional bodies to define the time commitments for these roles.

Royal College of General Practitioners GP PCT lead for child protection (www.rcgp.org.uk)

Purpose of the post

- To promote the care of children in need of child protection and other vulnerable children, such as those in special circumstances, within the primary care setting in general, and within general practice in particular.

GPs have an important role to play at all stages of the child protection process. They also have an important role to play in identifying families and children early in the course of their difficulties and providing timely support of a preventative nature. They need education and support to fulfil these tasks.(Ref. 5,6,7)

Scope of the post:
The post should respond primarily to the needs of the PCT and its population. GP Child Protection Leads will therefore perform a variety of tasks; no two PCT GP leads will do exactly the same.

Tasks will include:

a) Some or all of the tasks, according to the experience of the GP and the needs of the PCT, of a Named Doctor as described in ‘Working Together’ (Ref.8) and as described in the RCPCH job description for Named Doctors (Ref. 9). It is expected that such GPs will work along side other named and designated staff.

b) Specific clinical roles, for example, working with other named or designated staff to provide care to looked after children.

c) Audit, for example audit conducted on behalf of the PCT and supporting in practice audit.

d) Educational roles, for example, working with other named or designated staff, supporting GP education in child protection.

e) Liaison roles, for example, working along side LCSBs, LMCs, SHAs.

f) Leadership roles, for example, working with other named and designated staff and the PCT on the strategic planning of services for child protection.

g) Other roles as may be specifically identified and agreed to meet local PCT needs, such as research.
Person specification

Essential:
- Experienced GP of good professional standing with considerable experience in the care of children and young people.
- Fully registered, vocationally trained (or equivalent).
- Be able to demonstrate excellent communication skills.
- Be able to demonstrate effective participation in continuing medical education.
- Enhanced CRB check.

Desirable:
- Additional paediatric qualification (for example DCH) or experience (for example, attachment to community pediatrics).
- Qualification specific to the nature of the post, for example, GP trainer accreditation for a post with mostly educational activities, or registration with Council for the Registration of Forensic Practitioners for those undertaking forensic work.
- RCGP membership.

Training/education:
Many GPs appointed to post will need training/education before they can fully occupy their post. Training needs should be identified and met within the context of the GPs PDP. Protected and financially supported time must be allocated by the PCT and must be proportionate to educational need and the nature of the role occupied by the PCT GP lead.

National standards will be developed and Lead GPs should work towards these.

Appraisal
The GP Child Protection Lead should be appraised on an annual basis.

Supervision and support:
GP Child Protection Leads must be supervised and supported. Protected time must be allowed for this proportionate to role; no GP should be expected to provide support to colleagues or occupy a clinical role without supervision.

Accountability:
PCT GP leads in child protection will be accountable to the PCT Chief Executive

Administration time and support:
The Trust will supply appropriate secretarial support for GP Child Protection Leads when this is necessary, paying particular attention to training activity and serious case reviews.
GPSI:
Some GPs with a special interest and expertise may be appointed as GPSI. Such appointments should be made with reference to existing DH guidelines (Ref.10) and with reference to guidelines being developed by RCGP on behalf of DH.

Such GPSI may be appointed as PCT GP leads in child protection.

**Named professional for Child Protection**

**Model Job Description**

RCN- [www.rcn.org.uk/](http://www.rcn.org.uk/)

CPHVA - [www.msfcphva.org/](http://www.msfcphva.org/)

RCM - [www.rcm.org.uk/](http://www.rcm.org.uk/)

RCPCH- [www.rcpch.ac.uk/](http://www.rcpch.ac.uk/)

All NHS organisations providing services for children should identify a named doctor and a named nurse/midwife for safeguarding.

Some Trusts do not provide any children’s services. There is still a need for a Named Professional for Child Protection. There should also be an identified Named Midwife for Child Protection within all Maternity units. The job description of this professional will need to reflect the appropriate workload, both for child protection and for the rest of their work.

This job description should be agreed by the Health Trust that will be covered by the Named Professional. This outline is based on the duties and responsibilities of the Named professional described in:

- This includes Named Nurse, Named Health Visitor, Named Midwife and Named Doctor

**In England**

1. *Safeguarding Children*. This document is based on *Working Together to Safeguard Children*: A guide to inter-agency working to safeguard and promote the welfare of children. (Department of Health et al, 1999).
2. *Child Protection Responsibilities of Primary Care Trusts*. A letter to Chief Executives of Primary Care Trusts (PCTs), Shadow PCTs and Primary Care Groups (PCGs), from Jacqui Smith, Department of Health (28 January 2002).
In Scotland

In Northern Ireland

In Wales

Person Specification

Have a Criminal Records Bureau/Disclosure enhanced check.

The Named Nurse for child protection within the NHS Trust should:

1. Hold a senior level post. The local role would be subject to the usual Job Evaluation process. It is the normal expectation that it would be at a senior level within the Band 8 range.
2. Have completed specific training in the care of babies or children and be registered on either Part 1 of the NMC register as a registered children’s nurse, Part 2 as a registered midwife or Part 3 as a Specialist Community Public Health Nurse having completed a specific programme with a child and family focus. In respect of posts in Mental Health Trusts to be registered on Part 1 of the NMC register as a registered mental health nurse.

3. Prior to commencement in post must have completed specific post-registration training in child protection/safeguarding children: law, policy and practice at level 2 or PGDip.

4. Have a minimum of 3 years experience related to caring for babies/children and currently practising in the field of child protection. Such Professionals should have an awareness and/or experience in forensic matters

* This includes Named Nurse, Named Health Visitor and Named Midwife.

The Named Doctor for child protection within the NHS Trust should:

1. Hold consultant status or the post of associate specialist/senior clinical medical officer within an NHS Trust.

2. Ideally have undergone higher professional training in paediatrics. Alternatively, by virtue of experience and practice, have gained the professional respect of the consultant body and those of primary health care.

3. Have considerable clinical experience in caring for children and currently practising in the field of child protection, including gathering and interpretation of evidence.

4. Such Doctors should have an awareness and/or experience in forensic matters.

**Duties**

The Named Professional in child protection will:

1. Work closely with other Named Professionals and Designated Professionals in supporting all activities necessary to ensure that the Trust meets its responsibilities in safeguarding children.

2. Be responsible to and accountable within the managerial framework of their employing trust.

3. Inter-Agency Responsibilities:

   a) Participate in Area Child Protection Committee Local Safeguarding Children Boards (LSCBs) activities, which may include sitting on LSCBs or sub-committees as appropriate. These responsibilities should be shared with other Named and Designated Professionals.
b) Advise police, social care and other agencies on health matters with regard to safeguarding children in the community/hospital.

4. Advisory Role

a) Support and advise the Trust Board on child protection matters (this should be done in conjunction with other Named and Designated Professionals).

b) Contribute to the planning and strategic organisation of child protection services.

c) Support, advise and work with Designated Professionals on all questions of planning and strategy regarding child protection services.

d) Ensure advice is available on day-to-day management of children and families where there are child protection concerns to all specialties (including, but not limited to, primary health care, Accident and Emergency, orthopaedics, obstetrics, gynaecology, child and adult psychiatry). This advice may be specific to the hospital in which the Named Professional works, for example, ophthalmology.

e) The Named Professional in conjunction with other Named Professionals should advise the Trust Board whether there is an appropriate service for children who may experience all forms of child abuse and neglect, including Child Sexual Abuse and the taking of forensic specimens.

5. Clinical Role

a) The Named Professional will take an active role, together with colleagues within the Trust, in seeing children where there are child protection concerns (this does not mean that the Named Professional alone should see all child protection cases, but be part of a team of Nurses/Doctors who do). This should include all aspects of child abuse, including sexual abuse and neglect.

b) The Named Professional should support and advise other professionals on the management of all types of child maltreatment.

c) The Named Professional should have skills in the gathering and evaluation of evidence in order to safeguard children and young people.

d) The Named Professional should have appropriate skills in writing reports and presenting information to case conferences and related meetings.

e) The Named Professional should disseminate court craft skills, where needed, through accessing trust legal services and facilities.
6. Coordination and Communication

   a) The Named Professional should work closely with the Designated Professionals and other Named professionals within the geographical area

   b) Be a member of the local Health Professionals’ Advisory group

   c) Be represented at the Strategic Health Authority (SHA) (usually via a health representative group)

   d) Liaise with the executive lead for Child Protection on the Trust Board.

6. Policy and Procedures

   a) In conjunction with other named and designated professionals ensure that the Trust has appropriate child protection policies and procedures in line with national guidance and with ACPC (local Safeguarding Children Board, LSCB) guidance.

   b) Play a part in ensuring that procedures are distributed, understood and implemented by alerting professionals of any changes made in the light of new developments (local and national)

7. Training

   a) Liaise with Designated Professionals about assessment and priorities for training

   b) Together with other Named Professionals, ensure that the Trust has in accordance with national policy an appropriate training strategy for safeguarding children (protecting children)

   c) Will play an active role in the delivery of training to health personnel and multi-agency and disciplinary groups

8. Monitoring

   a) Advise employers on the implementation of effective systems of audit in order to monitor the agreed local child protection policies and procedures

   b) Assist with the collection of data in serious case reviews and developing the chronology of such children and families (unless directly involved with the case, when it should be the responsibility of someone else)

   c) Assist with monitoring the quality, acceptability and effectiveness of service provision and training

   d) Advise on the implementation and recommendations from Serious Case Reviews
e) Advise the Chief Executive of the Trust Board (via designated personnel i.e. Medical Director or Nurse Director or children’s lead) of their responsibilities to ensure that the performance indicators in relation to child protection are met.

9. Supervision

a) Together with other Named Professionals, advise on appropriate systems for child protection case supervision in addition to normal clinical supervision and support of all health employees

b) The Named Professional should support other professionals in their skills where child protection matters are concerned

c) The Named Professional should be trained to provide child protection supervision.

10. Personal Development

The Named Professional will attend the relevant local, regional and national continuing professional development activities in order to maintain up to date skills in the area. This includes meeting professional organisation requirements as a minimum in addition to specific training related to specialist activities.

11. Appraisal

The Named Professional must be appraised on an annual basis*. Reference must be made to someone with specialist knowledge on child protection in order to ensure the appraisal of the child protection role is appropriate.

* For nurses, midwives, health visitors and relevant health staff reference should be made to the NHS Knowledge and Skills Framework

12. Accountability

a) The Named Professional is accountable to the Chief Executive of the employing bodies, i.e.

   England & Wales: Chief Executive of Employing Trust
   Scotland: Chief Executive of the NHS Health Board
   Northern Ireland: Chief Executive of Employing Trust

b) The Medical Director or Nurse Director within the organisation with primary responsibility for children’s services will relate directly to and supervise the Named Professionals.
13. Authority

The Named Professional should have the authority to carry out all of the above duties on behalf of the employing body and be supported in so doing by others.

14. Resources Required for the Post

Designated and named professional roles should always be explicitly defined in job descriptions, and sufficient time and funding should be allowed to fulfil their child safeguarding responsibilities effectively.

a) There should be a named doctor and named nurse in every NHS Trust. [NB. There should also be a named midwife for child protection within all Maternity Units]

b) The amount of time required to undertake the tasks in the role description, will depend on the size and needs of the population, the number of staff, the number of directorates covered by the Trust and the degree of development of local safeguarding structures, process and function*.

c) The Trust will supply dedicated secretarial and effective support for the Named Professional.

d) At the time of a serious case review the Named Professional must be relieved of some of their duties.

e) There must be child protection safeguarding focused support and supervision for the individual. This is an acknowledgement of the stressful nature of this work.

* Further work will be undertaken by professional bodies to clarify and quantify the time requirements for the individual’s undertaking these roles.

The need for protected time is being affirmed in both the revised guidance on Working Together to Safeguard Children. “PCTs should ensure establishment levels of designated and named professionals are proportionate to the resident populations following any mergers, and the complexity of provider arrangements…… a team approach can enhance the ability to provide 24 hour advice and provide mutual support for those carrying out the designated and named professional roles” (Para 32), and in Standard 5 of the National Service Framework for Children, Young People and Maternity Services – where Primary Care Trusts (PCTs) need to demonstrate that they are meeting their responsibilities by “ensuring that funding is available to enable the named and designated professionals to fulfil their roles and responsibilities effectively” (Para 5.2)
Designated professional for Child Protection
Model Job Description

RCN- www.rcn.org.uk/
CPHVA- www.msfcp hva.org/
RCM - www.rcm.org.uk/
RCPCH - www.rcpch.ac.uk/

All primary care organisations should have a designated doctor and nurse to take a strategic, professional lead on all aspects of the health service contribution to safeguarding children across the area they serve, and should cover all providers. This job description should be jointly agreed by the Health Trusts that will be covered by the designated professional*. This outline is based on the duties and responsibilities of the designated professional described in:

In England
2. Child Protection Responsibilities of Primary Care Trusts – A letter to Chief Executives of Primary Care Trusts (PCTs), Shadow PCTs and Primary Care Groups (PCGs), from Jacqui Smith, Department of Health (28 January 2002).
* This includes Designated Nurse and Designated Doctor

In Scotland
In Northern Ireland

In Wales

Person Specification

Have enhanced CRB check.

The designated nurse in child protection should:

1. Hold a senior level post. The local role would be subject to the usual Job Evaluation process. It is the normal expectation that it would be at a senior level within the Band 8 range.
2. Have completed specific training in the care of babies or children and be registered on either Part 1 of the NMC register as a registered children’s nurse, Part 2 as a registered midwife or Part 3 as a Specialist Community Public Health Nurse having completed a specific programme with a child and family focus.
3. Have completed specific post-registration training at Masters level in child protection studies or equivalent.
4. Have considerable experience in caring for babies/children and currently practising in the field of child protection. Such nurses should have an awareness and/or experience in forensic matters.
5. Should have proven negotiating and leadership skills.
The designated doctor in child protection should:

1. Hold senior consultant status or equivalent, in a Trust hosting children’s services.
2. Have undergone higher professional training in paediatrics.
3. Have substantial clinical experience as a consultant in the field of child protection and substantial experience of the law applying to children and in the court process.
4. Still be clinically active in the field of child protection as part of their clinical commitments.
5. Should have good negotiating and leadership skills.

**Duties**

1. Work closely with other Designated and Named Professionals in supporting all activities necessary to ensure that the Trusts within the Strategic Health Authority remit meet their responsibilities in safeguarding children.
2. Be responsible to and accountable within the managerial framework of their employing trust.
3. Inter-agency Responsibilities
   a) Be a member of the relevant LSCB (Local Safeguarding Children Board) or negotiate an appropriate deputy.
   b) Usually serve on one or more LSCB sub-committees, particularly those concerned with health professionals, policy and strategy, governance/improvement training and serious case reviews.
   c) Advise other statutory and voluntary agencies (particularly social services and police) on health matters relevant to safeguarding children (to include policy as well as individual case difficulties).
   d) Liaise with local education providers to ensure appropriate child protection content within pre-registration/undergraduate/postgraduate training programmes.
4. Advisory Role
   a) Advise the Chief Executive of the StHA, PCT and all other Trusts on questions of planning and strategy with regard to safeguarding children (including ensuring performance indicators are in place where child protection is concerned)
   b) Advise and input into practice guidance development and policies for all those working within Health and ensure that they are appropriately audited.
   c) Advise the Strategic Health Authority via a health representatives’ group on deficiencies and vulnerable able areas across the area.
   d) Ensure that expert health advice on child protection is available to other agencies.
   e) Ensure expert advice is available on policy and procedures and on day to day management of children and families, to all specialties of health (including, but not limited to, GPs, A and E, orthopaedics, maternity services, gynaecology, child and adult psychiatry).
f) Advise on appropriate training for all health personnel.

g) Advise on the need for an appropriate service for children who may have experience of all forms of child abuse and neglect, including Child Sexual Abuse and the taking of forensic specimens.

5. Co-ordination and communication

   a) Will liaise with other designated professionals for child protection and decide with him/her an appropriate division of responsibilities.

   b) Will liaise with, advise and support the named professionals within the relevant trust, health district(s), and acute hospital trusts.

   c) Will liaise with any other designated professionals working within the area covered by the strategic health authority.

   d) Will either convene the local health advisory group for Child Protection or attend it and support its activities. This group should include, as well as the designated professionals, the named professionals for each constituent trust and representatives from midwifery services [including the Named Midwife for Child Protection], child and family psychiatry, psychology and general practice.

   e) Liase with SHA child protection lead.

6. Policy and procedures

   a) Will be responsible with other Designated Professionals for ensuring that the medical/nursing components of LSCB procedures are updated at appropriate intervals and for ensuring that each provider Trust has policies and procedures in keeping with local LSCB procedures.

   b) The designated professional in conjunction with other designated professionals should be advising that all policies, procedures and training and audit are in place within all privately funded establishments as well as Foundation Hospitals, Walk-In Centres, dentists’ surgeries and pharmacies for example.

7. Training responsibilities

   It is the responsibility of the employer to identify training needs through appraisal, supervision and audit.

   a) Will advise (together with others, e.g. other designated and named professionals) on training needs and delivery in child protection for nurses, health visitors, midwives, paediatricians, GPs, other doctors and health personnel in regular contact with children and families, (e.g.
dentists, opticians). Also to ensure appropriate training is in place for adult services where the impact of illness may seriously compromise parenting ability.

b) Will play an active part in the planning of multi-agency training through LSCB structures.

8. Monitoring

a) Advise employers on the implementation of an effective system of audit to monitor agreed local child protection policies and procedures.

b) Should advise on audit and monitoring the quality, acceptability and effectiveness of training.

c) In conjunction with other Designated Professionals advise on clinical governance and standards for Named professionals for child protection.

d) Where a serious case review is required, the designated professional will either participate in it or supervise and advise the health professionals involved (there may need to be an agreed sharing of personnel between trusts in order to provide independent views in serious case reviews).

e) Advise the Chief Executive of the Trust Board (via designated personnel i.e. Medical Director or Nurse Director or children’s lead) in their responsibilities to ensure that the performance indicators in relation to child protection are met.

9. Supervision

Advising on the need for appropriate child protection case focused supervision at all levels within the health service. Designated Professionals should seek their own supervision.

10. Personal Development

The designated professional will attend relevant regional and national continuing professional development activities in order to maintain up-to-date skills in the area. This includes meeting professional organisation requirements as a minimum in addition to specific training related to specialist activities.

11. Appraisal

The Designated Professional must be appraised on an annual basis*. Reference must be made to someone with specialist knowledge on child protection in order to ensure the appraisal of the child protection role is appropriate. Appraisal of the Designated Professional should be undertaken by the Director of Public Health with the PCT or via an equivalent arrangement at the Strategic Health Authority.

* For nurses, midwives, health visitors and relevant health staff reference should be made to the NHS Knowledge and Skills Framework
12. Accountability

Designated professionals should be performance managed in relation to their designated functions, at the level of Board Level Director who has executive responsibility for safeguarding children as part of their portfolio of responsibilities.

a) The Designated Nurse is accountable to the employing bodies, i.e.

- England: Chief Executive of the employing Trust/StHA
- Scotland: Chief Executive of the NHS Health Board
- Wales: Chief Executive of the NHS Health Board
- Northern Ireland: Chief Executive of the NHS Health Board

b) The Director of Public Health within the organisation with primary responsibility for children’s services will relate directly to and supervise the designated professionals.

13. Authority

The Designated Professional should have the authority to carry out all the above duties on behalf of the employing trusts, and be supported in so doing by others (e.g. doctors, nurses, administration).

14. Resources required for post

Designated and named professional roles should always be explicitly defined in job descriptions, and sufficient time and funding should be allowed to fulfil their child safeguarding responsibilities effectively.

The Employing Body should:

a) There should be a designated doctor and designated nurse for every PCT.

b) The amount of time required to undertake the tasks in the role description, will depend on the size and needs of the population, the number of staff, the number of trusts covered by the LSCB and the degree of development of local safeguarding structures process and function*. For large NHS organisations which may have a number of sites, a team approach can enhance the ability to provide 24 hour advice and provide mutual support for those carrying out the designated and named professional role.

c) Supply dedicated and effective secretarial support for the designated professional.

d) At the time of a serious case review the Designated Professional must be relieved of some of their duties.
e) Should ensure that adequate resources are available able to deliver training, and at times of additional work e.g. serious case review.

f) Should ensure there is safeguarding focused supervision and support for the individual. This is an acknowledgement of the stressful nature of this work.

*Further work will be undertaken by professional bodies to clarify and quantify the time requirements for the individual’s undertaking these roles.

The need for protected time is being affirmed in both the revised guidance on *Working Together to Safeguard Children*. “PCTs should ensure establishment levels of designated and named professionals are proportionate to the resident populations following any mergers, and the complexity of provider arrangements…… a team approach can enhance the ability to provide 24 hour advice and provide mutual support for those carrying out the designated and named professional roles” (Para 32), and in Standard 5 of the National Service Framework for Children, Young People and Maternity Services – where Primary Care Trusts (PCTs) need to demonstrate that they are meeting their responsibilities by “ensuring that funding is available to enable the named and designated professionals to fulfil their roles and responsibilities effectively” (Para 5.2)
Appendix A: National Workforce Competences

National Workforce Competences are referenced to both their source, e.g. National Occupational Standards for Drugs and Alcohol (DANOS), and their reference within this source, e.g. DANOS BC4. The abbreviations used for different sources of competences are shown below.

With three exceptions all of the National Workforce Competences listed on the following tables can be accessed from the Skills for Health website at www.skillsforhealth.org.uk/frameworks.php#frameworks. Where competences have been imported from other sectors, a health framework reference is provided to facilitate access to the relevant competence from the Skills for Health website.

National Workforce Competences CJ E202 (pages 2 & 3) and Police 2J3 (page 8) were developed by Skills for Justice. Details of these competences can be accessed from www.skillsforjustice.net/nos/home.htm.

ENTO L1 (pages 6 & 7) is available at:
www.ukstandards.co.uk/Find_Occupational_Standards.aspx
in the Learning and Development suite of standards.
