

Preterm

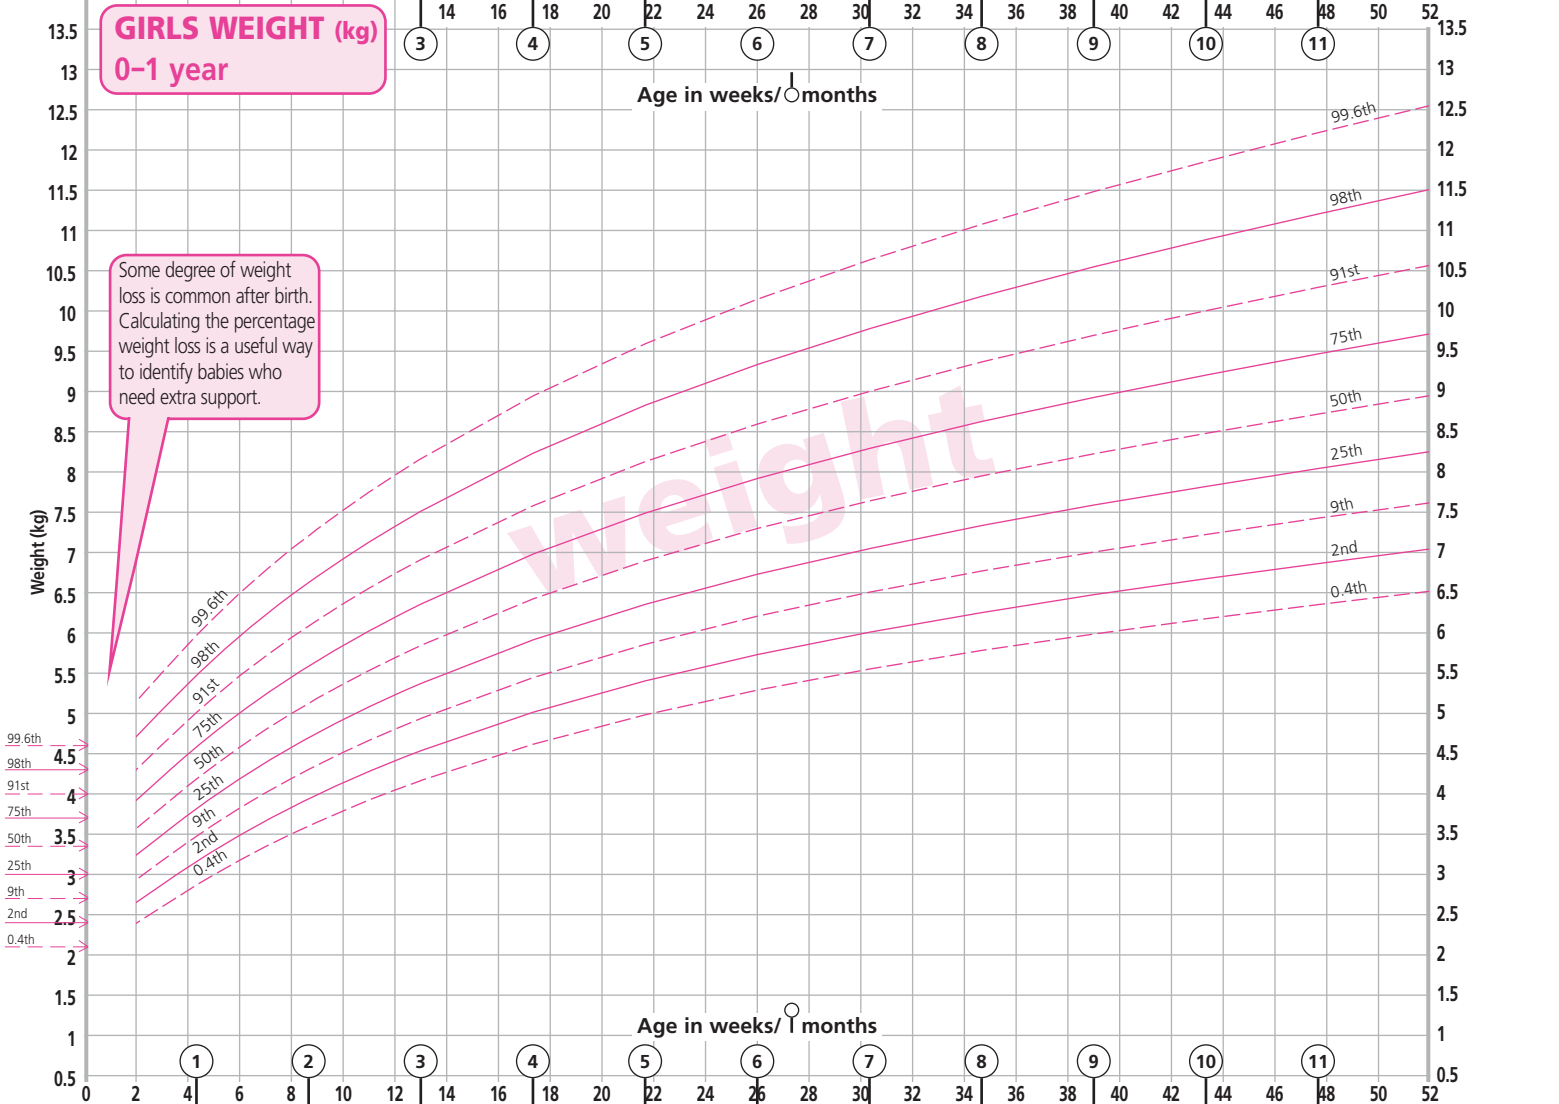

For **preterm infants** (less than 37 weeks gestation), plot on this chart until 2 weeks after expected date of delivery (42 weeks). As with term infants, some weight loss is common in the early days.

From 42 weeks, plot on the 0-1 year chart with **gestational correction**. Plot at actual age then draw a line back the number of weeks the infant was preterm and mark spot with arrow; this is the gestationally corrected centile.

GIRLS WEIGHT (kg)
0-1 year

Some degree of weight loss is common after birth. Calculating the percentage weight loss is a useful way to identify babies who need extra support.

GIRLS WEIGHT (kg)
1-4 years

GIRLS LENGTH (cm) 0-2 years

GIRLS HEIGHT (cm)
2-4 years

Plot your daughter's height centile on the pink lines; the black numbers show average female adult height for this centile; four out of five will be within 6 cm above or below this value.

GIRLS HEAD CIRCUMFERENCE (cm) 0-2 years
