

# Your baby's care

## Measuring standards and improving neonatal care

Approximately **1 out of every 8** babies born in England and Wales each year needs specialist neonatal care.

### National Neonatal Audit Programme

It is very important that the standards of care that are provided in neonatal units are monitored regularly and the Royal College of Paediatrics and Child Health (RCPCH) does this through the National Neonatal Audit Programme (NNAP).

Ask neonatal unit staff for a copy of the “Your baby’s care” report if you want to find out more.
